ABOUT US

History

Maritzburg Central Panelbeaters commenced business on 15 October 2000 in Pietermaritzburg. We offer a wide range of vehicle repair procedures.

Our directors have a combined experience of more than 30 years in the industry.

Facilities

We have invested heavily in our facilities and have a 2225m² which we acquired in February 2003. It consists of a mixing room, dry flattening, extraction bays, chassis straightening, hoist and infrared lamps, a dedicated car wash and we have courtesy vehicles. We currently have 35 experienced staff.

Mission

To grow our business into a trusted repairer based on mutually beneficial relationships and the highest standard of customer service. We endeavor to provide repairs of the highest quality.

Certification

Level 1 BBBEE contributor

Warranty

Our quality of workmanship carries a 12 month warranty.

Our paint has a lifetime warranty.

SERVICES

❖ Panel Beating – 2225m² workshop space

- We are a trusted repairer in Pietermaritzburg and are based on mutually beneficial relationships we have high standards of workmanship & customer service.

❖ Expert Chassis Straightening

- We have dedicated staff and workshop space to straighten chassis' of any vehicle brand or type. We take pride in bringing your car back to the state it was before an accident.

❖ Professional Spray Painting

- We have many years of spraypainting experience for all types of vehicles and do a complete recoat on any brand or touch-ups for dents or panel damage.

❖ Full Auto body Polishing

- Using our experienced staff & fully fitted facilities we perform full auto body polishing to excellent standards.

❖ Hail Damage Repair

- We offer two separate customer focused facilities:
The Structural Repair facility repairs any mechanical and structural damage. The Express Repair facility, focuses repairing non-structural damage as quickly and efficiently as possible.

❖ Paintwork Touch-Ups

- We have three fully compliant, combination downdraught spray booth/drying ovens; capable of delivering 15 cars per day. Paint System: MCP only uses a water-based paint system; as required by most leading manufacturers, including BMW, Audi, and Lexus. SATA and Divilbiss spraying equipment is used to apply the paint coat.

❖ Insurance Claim Assistance

- We take the hassle out of insurance claims by dealing with your insurer directly. We'll assist you in the process and will follow up your claim with your insurance company including managing the assessment process, liaising with the Insurance assessor and others until your claim approval is received.

BRANDS

EQUIPMENT

Overview

Panelbeating Equipment

We use Celette chassis straightening equipment to effect structural repairs. We operate Car-O-Liner 3D Vision chassis diagnostic equipment to verify the accuracy of repairs.

Welding Equipment

Our manufacturer approved spot welding equipment is up to date, state of the art, and able to weld multi-phase steels.

Wheel Alignment

Beissbarth equipment; approved by all motor manufacturers, ensures that our wheel alignment is always accurate.

Air-conditioning Repairs

Using our in-house equipment, the MCP technicians are fully qualified to perform repairs and to re-gas all automotive air-conditioning systems.

Vehicle Diagnostics

All electronic systems are carefully diagnosed with leading Bosch equipment. All BMW vehicles are diagnosed with the approved BMW ISIS system.

Tyre Replacement and Tyre Balancing

We are capable of changing and accurately balancing all tyres up to 26 inch, including Runflat Tyre
